

## Site Inspection Exercise

---

Use your Minimum Standards' Guide and Chapter 7 of the Virginia Stormwater Management Handbook to determine the appropriate action.

As you view each site image in the class, consider the following:

- Do you need an inspection report for this situation?
- Is this a minimum standard problem? Which one?
- Are there problems with the C-BMP(s)? What are they?
- Do you need a Notice to Comply or Stop Work Order?
- If a correction is needed, how much time would you allow?

Item#	State/Local Regulation <sup>(1)</sup>	Occurrence		Description and Location of Condition Observed <sup>(2)</sup> , Required or Recommended Corrective Actions, and Other Comments/Notes	Corrective Action Deadline (How much time?)
		Initial	Repeat

(1) Refers to applicable regulation found in the most recent publication of the *Virginia Erosion and Stormwater Management Regulation* (9VAC25-875) or local ESC/SWM ordinance.

(2) Note whether or not off-site damage resulting from the observed condition was evident during the inspection.
