

## Crossover Reference Table - Post-Construction BMPs (Stormwater Management)

| 2011 and 2013 BMP Design Specifications |                                                           | Virginia Stormwater Management Handbook Chapter 8.3 |                                                           |
|-----------------------------------------|-----------------------------------------------------------|-----------------------------------------------------|-----------------------------------------------------------|
| 1                                       | Downspout Disconnection                                   | P-FIL-01                                            | Rooftop/Impervious Surface Disconnection                  |
| 2                                       | Sheet Flow to Vegetated Filter Strip/Conserved Open Space | P-FIL-07                                            | Sheet Flow to Vegetated Filter Strip/Conserved Open Space |
| 3                                       | Grass Channel                                             | P-CNV-01                                            | Grass Channels                                            |
| 4                                       | Soil Amendments                                           | P-FIL-08                                            | Soil Compost Amendment                                    |
| 5                                       | Vegetated Roof                                            | P-FIL-02                                            | Vegetated Roof                                            |
| 6                                       | Rainwater Harvesting                                      | P-BAS-04                                            | Rainwater Harvesting                                      |
| 7                                       | Permeable Pavement                                        | P-FIL-03                                            | Permeable Pavement                                        |
| 8                                       | Infiltration Practices                                    | P-FIL-04                                            | Infiltration Practices                                    |
| 9                                       | Bioretention                                              | P-FIL-05                                            | Bioretention                                              |
| 10                                      | Dry Swale                                                 | P-CNV-02                                            | Dry Swales                                                |
| 11                                      | Wet Swale                                                 | P-CNV-03                                            | Wet Swales                                                |
| 12                                      | Filtering Practices                                       | P-FIL-06                                            | Filtering Practices                                       |
| 13                                      | Constructed Wetlands                                      | P-BAS-01                                            | Constructed Wetlands                                      |
| 14                                      | Wet Ponds                                                 | P-BAS-02                                            | Wet Pond                                                  |
| 15                                      | Extended Detention                                        | P-BAS-03                                            | Extended Detention Pond                                   |
| Appendix A                              | Earthen Embankment                                        | P-SUP-01                                            | Earthen Embankment                                        |
| Appendix B                              | Principal Spillway                                        | P-SUP-02                                            | Principal Spillway                                        |
| Appendix C                              | Vegetated Emergency Spillway                              | P-SUP-03                                            | Vegetated Emergency Spillway                              |
| Appendix D                              | Sediment Forebay                                          | P-SUP-06                                            | Pre-treatment                                             |
| Appendix E                              | Landscaping                                               | Appendix G                                          | Plant Selection                                           |
|                                         |                                                           | P-FIL-09                                            | Tree Planting                                             |
|                                         |                                                           | P-CNV-04                                            | Regenerative Stormwater Conveyance                        |
|                                         |                                                           | P-SUP-07                                            | Quantity-Only Approach to BMPs                            |
|                                         |                                                           | P-SUP-08                                            | Permanent Level Spreader                                  |
