Hello

RTN submitted an application to amend the Certificates (there were two issued for the two parcels) to allow for residential use based on a revised evaluation of risk and proposed institutional controls. The Public Notice was just completed with no comments. RTN also participated in a public informational meeting a month ago in which these changes were mentioned. We have draft Amended Certificates in hand and will likely finalize and sign by July 31.

I just wanted to let you know in case any questions came in. As mentioned RTN received no PN comments and we got none from the DEQ website posting that I am aware of.

If you have any questions, please let me know

Thx

meade
