

HAZARDOUS WASTE PERMIT MODIFICATION APPROVALS 07/01/24 – 06/30/25

Overview

Under the Virginia Hazardous Waste Management Regulations (VHWMR), the Department of Environmental Quality (DEQ) must maintain a list of approved hazardous waste management permit modifications. This list must be updated annually. In addition, a notice must be published in a statewide newspaper that an updated list is available for public review. Table 1 below provides information regarding the permit modification approvals that were issued during the most recent state fiscal year ending on June 30, 2025.

Table 1 – Hazardous Waste Permit Modification Approved in State Fiscal Year 2025

Table 1 - This table provides information about hazardous waste permit modifications approved by DEQ between July 1, 2024 and June 30, 2025. It includes the following information: facility name and location, EPA identification number, the classification of the permit modification, a summary of the modification and the date of approval. Permit Modification Classifications are defined in [40 CFR § 270.42](#).

Facility Name and Location	EPA Identification Number	Permit Modification Class	Summary of Modification	Date of Modification Approval
NASA Wallops Island (Open Burning Ground Permit) Wallops Island, VA	VA7800020888	Class 1	Revision to incorporate the replacement monitoring wells, new well location map, and replacement well construction diagrams and boring logs.	6/3/2025
Radford Army Ammunition Plant (Incinerator/Tank Permit) Radford, VA	VA1210020730	Class 1	Revision of the construction schedule for the Explosive Waste Incinerator (EWI) Contaminated Waste Processor (CWP)	5/1/2025
NASA Wallops Island (Open Burning Ground Permit) Wallops Island, VA	VA7800020888	Class 1	Revision of Environmental Coordinators in the Contingency Plan.	4/17/2025
Radford Army Ammunition Plant (Incinerator/Tank Permit) Radford, VA	VA1210020730	Class 1	Revision of the construction schedule for the Explosive Waste Incinerator (EWI) Contaminated Waste Processor (CWP)	09/10/2024
Radford Army Ammunition Plant (Open Burning Ground Permit) Radford, VA	VA1210020730	Class 1	Removal of text referencing the test method for 4-nitrophenol which was retained in the renewal permit inadvertently.	08/20/2024
NASA Wallops Island (Open Burning Ground Permit) Wallops Island, VA	VA7800020888	Class 2	Revisions to the SW-846 analysis methods, additions to the semiannual groundwater monitoring list for constituents which have been detected during the semi-annual monitoring events. Removal of constituents from the groundwater monitoring list for annual monitoring.	7/18/2024
Radford Army Ammunition Plant (Incinerator/Tank Permit) Radford, VA	VA1210020730	Class 1	Revision of the construction schedule for the Explosive Waste Incinerator (EWI) Contaminated Waste Processor (CWP)	07/11/2024
