PRELIMINARY JURISDICTIONAL DETERMINATION

Special Projects Regulatory Section
NAO-2018-1574 (Dan River)

Jeffrey Klinefelter
Vice President, Construction and Engineering
EQT Corporation
2200 Energy Drive
Canonsburg, PA 15317

Dear Jeffery Klinefelter:

This letter is in regard to your request for a preliminary jurisdictional determination of the aquatic resources (e.g., wetlands, streams, and ponds), on an approximately 586.8-acre project area, known as the Mountain Valley Pipeline – Southgate Project, in Pittsylvania, Virginia, hereinafter referred to as project area. The project location is an approximately 30.1 mile corridor that starts southwest of Transco Road in Transco Village, Virginia (36.835681°N, -79.340417°W) and terminates at the Virginia-North Carolina border (36.541631°N, -79.632697°W) 0.18 miles northeast of the intersection of U.S. Highway 311 and Buffalo Road in Pittsylvania County, Virginia.

The map entitled "Figure A-5, Wetlands and Other Aquatic Resources Map, MVP Southgate Amendment Project", by Burns & McDonnell dated August 8, 2025 and received by the U.S. Army Corps of Engineers (Corps) on August 8, 2025 (on file at corps) provides the locations of the aquatic resources within the project area referenced above. This letter is not confirming the Cowardin classifications of these aquatic resources.

These aquatic resources exhibit wetland criteria as defined in the 1987 Corps of Engineers Wetland Delineation Manual and the Eastern Mountains and Piedmont Regional Supplement. This site also contains aquatic resources with an ordinary high-water mark.

This preliminary jurisdictional determination and associated aquatic resource delineation map may be submitted with a permit application.

Please be aware that you may be required to obtain a Corps permit for any discharge of dredged and/or fill material, either temporary or permanent, into a water of the U.S. In addition, you may be required to obtain a Corps permit for certain activities occurring within, under, or over a navigable water of the U.S. subject to the Section 10 of the Rivers and Harbors Act. Furthermore, you may be required to obtain state and

local authorizations, including a Virginia Water Protection Permit from the Virginia Department of Environmental Quality (DEQ), a permit from the Virginia Marine Resources Commission (VMRC), and/or a permit from your local wetlands board.

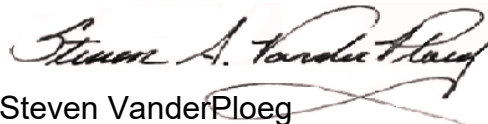

This delineation and preliminary jurisdictional determination may not be valid for the Wetland Conservation Provisions of the Food Security Act of 1985, as amended. Therefore, if you or your tenant are US Department of Agriculture (USDA) program participants, or anticipate participation in USDA programs, you should discuss the applicability of a certified wetland determination with the local USDA service center, prior to starting work.

This is a preliminary jurisdictional determination and is not a legally binding determination regarding whether Corps jurisdiction applies to the aquatic resources in question. To determine Corps' jurisdiction, you may request and obtain an approved jurisdictional determination.

This delineation of aquatic resources can be relied upon for no more than five years from the date of this letter. New information may warrant revision. Enclosed is a copy of the "Preliminary Jurisdictional Determination Form". Please review the document, sign, and return one copy to the Corps, either by email steven.a.vanderploeg@usace.army.mil or by standard mail to Attn: Steven VanderPloeg, U.S. Army Corps of Engineers, Norfolk District, CENAO-WR-R, 9100 Arboretum Parkway, Suite 235, Richmond Virginia 23236.

If you have any questions, please contact Steven VanderPloeg either via telephone at (804) 397-9836 or via email at steven.a.vanderploeg@usace.army.mil.

Sincerely,

Steven VanderPloeg
Project Manager
Western Virginia Regulatory Section
