

## Virginia Department of Environmental Quality

### List of Approved Underground Storage Tank Operator Training Providers

The courses provided by the companies listed below have been reviewed by the Department of Environmental Quality (DEQ) and have been determined to meet the minimum qualifications as required by Section 125 of Virginia's Underground Storage Tank (UST) Technical Regulation (§9VAC25-580 et seq.) or have been approved by another state as meeting their state specific guidelines for UST Operator Training. Training programs approved via reciprocity only may not be Virginia UST regulation specific. This list will be updated periodically as additional training programs are approved. Class C Operators will most likely be trained by certified Class A and Class B Operators as provided in the Regulation and are not included on this list. Inclusion on this list does not represent an endorsement or recommendation by DEQ.

***Note: Classroom training providers may offer training in various locations. It is recommended that operators contact the training providers for dates, locations, and times of training.***

**Government Developed Class A and Class B Operator Training Programs**

Tennessee

Tank Helper – <https://tdec.tn.gov/tankhelper>

*Note: Tennessee Tank Helper no longer contains modules for groundwater or vapor monitoring for release detection. Therefore, if you are using groundwater or vapor monitoring, a different operator training module must be used such as the Environmental Protection Agency's (EPA's) training exam's located at Class A and Class B UST Operator Exams | Underground Storage Tanks (USTs) | US EPA .*

Montana

TankHelper2 – <https://app.mt.gov/tank2/>

Oklahoma

Operator Training – <http://www.occeweb.com/operatortraining>

Maine

TankSmart – <http://www.maine.gov/dep/waste/tanksmart/index.html>

South Carolina

UST Training System –

<https://www.scdhec.gov/Apps/Environment/USTOperatorTraining/>

Environmental Protection Agency (EPA)

<https://www.epa.gov/ust/class-a-and-class-b-ust-operator>

The EPA features an interactive exam that is sufficient for training.

**All state and EPA developed training programs are approved via reciprocity.**

*In house developed training programs are also an option. UST Operator Training Guidance may be found at*
